### Description

IDG was appointed by Carnoustie Management to undertake the Masterplanning, Landscape Architecture, Architecture and Project Management for their new Eco Resort in Kerala. The Resort comprises of a variety of exclusive and luxurious villas, fine dining and a spa, all set within a tropical verdant beachside location.

The Landscape is locally sourced either from the same site or nearby locations; the resort is evocative of the location and the culture. The project utilizes a natural colour palette which is punctuated by the bright tropical plants which are indigenous to the area.

The culture of Kerala is a synthesis of Aryan and Dravidian cultures, developed and mixed for centuries, under influences from other parts of India and abroad

### Objectives & Challenges

- Assisting client and consultants to produce a world class Eco Resort in Kerala
- Making the best use of materials and resources found on and near the site.
- Creating the maximum financial value by optimising premium villas within the lush landscape.
- Integrating modern operational design principals into a tropical style.

### Added Value & Benefits

- Longer term solutions included water resource management strategies & coastal reinforcements providing longevity of resort life.
- IDG staff brought operational experience to the design process to ensure minimal running costs.
- Future planning, helping the client plan future expansion of this very successful resort.

<b>Project Size</b> 35 Acres
<b>Date (Start/End)</b> 2009 / 2011
